

(d) (Refereed) papers in proceedings of Conferences, Symposia, etc. :

1. H. R. Krishnamurthy K.G. Wilson and J.W. Wilkins (1977)
Susceptibility of the Asymmetric Anderson Model: Relevance to Valence Fluctuations Compounds
Proceedings of the International Conference Valence Instabilities and Related Narrow Band Phenomena" (R.D. Parks,(ed), Plenum Press, NY, 1977), p.177
2. H. R. Krishnamurthy (1981)
Local Moment Formation in Metal and the Kondo Effect in
"Current Trends in Magnetism" (Ed.s N.S. Sathya Murthy, Madhava Rao) Indian Physics Association Bombay (1981), p. 10
3. H. R. Krishnamurthy and C. Jayaprakash (1981)
Thermodynamic scaling Theory for Generalised Impurities in Metals
Proceedings of the International Conference on "Valence Fluctuations in Solids", Santa Barbara Jan 1981(Eds. L.M. Falicov, W. Hanke and M.R. Maple), North Holland, Amsterdam (1981), p. 369
4. H. R. Krishnamurthy (1982)
Invited Talk "*Local Magnetic moment in Metals*"
Proceedings of the NP and SSP Symposium Dec'79, Madras, Vol **22A**, p.187,(DAE Jan 1982)
5. Leena Chandran, H. R. Krishnamurthy and T.V. Ramakrishnan (1987)
Energetics of Mixed Valent Systems
Proceedings of the 5th International Conference on Valence Fluctuations, Bangalore, India, Jan 1987, (eds. L C Gupta, S K Malik and R Vijayaraghavan), Plenum Press(1987), p. 521
6. Kan Chen, C. Jayaprakash and H. R. Krishnamurthy (1987)
Spatial Correlations around Magnetic Impurities in Metals
Proceedings of the 5th International Conference on Valence Fluctuations, Bangalore, India, Jan.1987 (eds. L C Gupta, S K Malik, and R Vijayaraghavan), Plenum Press (1987), p. 527
7. Leena Chandran, H. R. Krishnamurthy and C. Jayaprakash (1987)
Spin-spin Correlations in the Two-Impurity Kondo Problem
Proceedings of the 5th International Conference on Valence Fluctuations Bangalore, India, Jan.1987 (eds. L C Gupta, S K Malik and R Vijayaraghavan), Plenum Press (1987), p.531
8. M. Raj Lakshmi H. R. Krishnamurthy and T.V. Ramakrishnan (1988)
Topological defects in crystals: A density Wave Theory
Bul. Mater.Sci. **10**45-51 (March 1988)
9. Kan Chen, C. Jayaprakash and H. R. Krishnamurthy (1988)
Spatially Dependent Correlation-functions in the Anderson Model
J Appl Phys **63**3903 Part 3 (April 15, 1988)
10. H. R. Krishnamurthy, C. Jayaprakash W. Wenzel and S.Sarker (1989)
New Mean Field Theories of the Hubbard Model
Physica C **162-164**,1447-1448 Part 2 (Dec 1989)
11. S. Sarker, H. R. Krishnamurthy C. Jayaprakash and W. Wenzel (1990)
Mean Field Theories of Hubbard and t-J Models
Physica B **163**,541-543 (April 1990). [1 citation]
12. Madan Rao, H. R. Krishnamurthy and Rahul Pandit (1990)
Hysteresis in Model Spin Systems
J. Appl. Phys. **67**, 5451-5453 Part 2B (May 1, 1990). [18 citations]
13. D. M. Newns, C. C. Tsuei, P. C. Pattnaik, C. L. Kane, C. C. Chi, H. R. Krishnamurthy and M. Daumling (1993)
Cuprates, back to the Fermi Surface
MRS Proceedings **275**, 3, Cambridge University Press (1992). [2 citations]
14. A. K. Sood, J. Chakrabarti, H. R. Krishnamurthy (1996)
Freezing of charge stabilised colloidal suspensions
Indian J Pure Ap Phy **34**622-625 (Sept 1996)
15. T. V. Ramakrishnan, H. R. Krishnamurthy, S. R. Hassan and G. Venketeswera Pai (2003)
Colossal Magnetoresistance Manganites: A New Approach
Proc. Indian Acad. Sci. (Chem. Sci.), **115**767-774 (Oct - Dec 2003)

16. H. R. Krishnamurthy (2005)
A new theory of doped manganites exhibiting colossal magneto-resistance
Invited Talk, published in the Proceedings of STATPHYS 22,
Pramana-J. Phys, **64**, 1063 (2005).
17. J. K. Freericks, H. R. Krishnamurthy, P. Carrier, Y. Saad
Efficiently generalizing ultra-cold atomic simulations via inhomogeneous dynamical mean-field theory from two-to three-dimensions
High Performance Computing Modernization Program Users Group Conference (2010).
18. J. K. Freericks, K. Mielson, H.R. Krishnamurthy
The Generalized Gradient Approximation Applied to the Three-Dimensional Hubbard Model in a Trap: A CAP and Challenge Project
High Performance Computing Modernization Program Users Group Conference (2011)
19. J. K. Freericks, K. Mielson, H.R. Krishnamurthy
Strong Coupling Expansion for the Nonequilibrium Properties of Ultracold Atoms on an Optical Lattice High Performance Computing Modernization Program Users Group Conference (2012)
